Project

- PEPPER AI DISCORD BOT

  I have developed a Discord chatbot integrated with OpenAI as part of my Project 2 coursework. This project aims to enhance user engagement on Discord by incorporating advanced natural language processing from OpenAI, allowing the chatbot to generate human-like responses

- BIAK TOURISM-HUB

  I have undertaken a project as part of my Project 3 coursework, involving the development of a website for managing tourist ticket bookings in the city of Biak, Papua.

- EDUGUARD-LMS

  I have developed a Learning Management System website for my project. This application offers courses that are centered around the cybersecurity curriculum, providing an affordable learning solution.
